## Informed Consent for Physical, Occupational and Speech Therapy

Physical, occupational and speech therapy involve the use of many different types of physical examination and treatment. At Community Sports and Therapy Center we use a variety of procedures and modalities to help us attempt to improve your function. As with all forms of medical treatment, there are benefits and risks involved with therapy.

The physical response to a specific treatment can vary widely from person to person. It is not always possible to predict your response to a certain procedure or modality. We are not able to guarantee what your reaction will be to a particular treatment, nor can we guarantee that our treatment will help the condition you are seeking treatment for.

Benefits may include improvement in symptoms and overall function. You might also experience decreased pain and discomfort. You could also gain a greater knowledge about your condition and how to manage your condition.

Potential risks may include increase in current level of pain, aggravation of previously existing conditions, and could involve life threatening situations.

I understand that the physical therapist, occupational therapist and/or speech language pathologist provides a wide range of services. I acknowledge that my treatment program has been explained and that I have been given an opportunity to ask questions. I understand the risks associated with a program of physical, occupational, and/or speech therapy. I confirm that I have read and fully understand this consent form. I wish to proceed with all therapy services.

## Does My Insurance Cover My Therapy?

The Community Sports and Therapy Center realizes that navigating through your insurance can be confusing and difficult. **It is ultimately your responsibility as a patient to check your therapy benefits with your insurance company.** We have created this form to try to make it easier for you to find out your therapy benefits which can change from time to time and also so you know what questions you need to ask. Please share any information you find out with your therapy staff so they will better be able to assist you with following your insurance coverage guidelines while still getting your maximum benefit from therapy. Print this form out as necessary so you can record the information you receive from the insurance companies.

**\*\*When calling, document the date called and write down the full name of the person you spoke with at that time. At the end of the call ask for a reference number for the call.\*\***
